

Ahsan Ali

Software Engineer

✉ ahsanali3174@gmail.com 📞 +923335082651 📍 Islamabad,, 46000 Pakistan

Education

BS in Computer Science

Sep 2015 – Oct 2019

International Islamic University, Islamabad

Developed a strong foundation in computer science principles, algorithms, data structures, and programming languages. Acquired practical experience through coursework and projects involving software development, database management, and system analysis.

Employment

Software Engineer

Nov 2021 – Present

Genesis IT Lab, Islamabad

- Experienced mobile application developer and team leader at Genesis It Lab, demonstrating expertise in React Native and Flutter frameworks.
- Led the development and deployment of over 5-6 cross-platform mobile applications for iOS and Android.
- Mastered Flutter and implemented Solid principles, MVVM architecture, and Clean Code practices for scalable and efficient app development.
- Actively contributed to knowledge sharing within the team and mentored junior developers, fostering a culture of continuous learning and innovation.
- Successfully migrated legacy apps to Flutter, optimized React Native apps for improved performance, and conducted workshops to enhance team skills in cross-platform development.

React Native Developer

Mar 2020 – Oct 2021

eConceptions, Islamabad

- Developed and maintained mobile applications using React Native framework for cross-platform deployment on iOS and Android platforms.
- Utilized React Native components and libraries to create responsive and user-friendly interfaces, optimizing app performance and user experience.
- Integrated Firebase services into mobile applications to handle real-time data synchronization, user authentication, and backend functionalities.
- Collaborated closely with UI/UX designers and backend developers to implement features and functionalities that meet project requirements.
- Conducted testing and debugging to identify and resolve issues, ensuring high-quality deliverables within project timelines.
- Actively participated in agile development processes, including daily stand-ups, sprint planning, and retrospective meetings.
