CAREER

I'm a professional **front-end** Web and Mobile App developer with hands-on experience in creating custom **REACT JS** and **REACT NATIVE** applications.

Some of my top priorities are:

- building user-friendly, responsive & accurate screens from Figma
- integrating frontend with backend APIs to fetch and update data
- staying up-to-date with the latest trends and best practices
- writing reusable and efficient code to ensure optimal performance
- working with version control systems (e.g., Git)
- integrating third-party libraries into the application as needed
- deploying web and mobile apps

• I can create complex Analytics / Dashboard systems including all kind of charts/graphs with very deep level of cutomizations and fulfilling different use cases (such as global impact) as well using **Recharts** library.

WORK EXPERIENCE

Kaizen Global

Location: Shamsabad, Rawalpindi, Pakistan

Dates of Employment: June 2021 - April 2023

Job Title: React JS Developer

Key Responsibilities and Achievements:

- Led the development of a web app for **Giftees.net**, a B2B platform, utilizing React.js and Firebase.
- Collaborated closely with stakeholders to optimize processes and enhance functionality through iterative refinements.
- Developed a centralized dashboard with comprehensive table view functionality for efficient order management.
