Bachelors in Software Engineering
National University of Modern Languages, Islamabad

Feb 2019 – Jan 2023

TECHNICAL SKILLS

React Native

TypeScript

JavaScript

React.js

Express.js

Node.js

Next.js

Unit Testing

MongoDB

Python

Linux & Mac OS

Other relatated technologies

PROJECTS

CureVision

React Native with TypeScript

The new age of wound analysis. Fully automatic and precise wound analysis in seconds.

- Automatic wound detection
- Only MDR-approved system for 3D wound analysis
- Digital wound report with one click

Equal Access

React Native with TypeScript

Equal Access Mobile Application is a collaborative effort between the Special Talent Exchange Program (STEP) and the Pakistan Telecommunication Authority (PTA), backed by the British Council's Awaz II Program. The initiative aims to provide individuals with disabilities in Pakistan with comprehensive information on their entitlements and available services.

WhatsappDirect

React Native with TypeScript

The app allows users to directly open a chat on WhatsApp with any number, without the need to save it first. Optional saving of contacts as shortcuts is available, and the app supports Dark Mode.
