Experience

Mar 2023 - Present

ZYGON (United Arab Emirates)

React Native Developer / Mobile App Developer

In my role at ZYGON, I contributed to an app available on the Google Play Store that featured video/audio playback with AirPlay support. I employed Redux for robust state management and Axios for seamless API integration, ensuring a responsive user experience.

Nov 2021 - Present

Globewyze Inc (Islamabad, Pakistan)

React Native Developer / iOS Developer

Developed and deployed cross-platform iOS and Android applications using Native and React Native technologies, ensuring successful launches on both app stores with seamless user experiences.

Jun 2020 - Oct 2021 (1.3 years)

Peek International (Rawalpindi, Pakistan)

React Native Developer / iOS Developer

Designed and developed an iOS application using Swift, integrating RESTful services, CocoaPods for dependency management, WebSocket for real-time communication, and AppRTC for video and audio calling features. Proficient in creating a chat application with capabilities for one-on-one and group video/audio calls.

Dec 2018 - May 2020

Mobologics (Rawalpindi, Pakistan)

iOS Developer

Design and Develop an iOS Application in Swift that utilizes RESTful services and CocoaPods for additional libraries and dependencies. Additionally, I have experience in developing apps using SQLite and have worked with technologies such as AppRTC.

Projects

WyzerAim (React Native)

A restaurant app that provides a user-friendly interface to explore menus, make reservations, order food, and receive updates on promotions and special offers, enhancing the overall dining experience

ZYGON (React Native)

I have successfully contributed to the development of a dynamic mobile application available on the Google Play and app Store, featuring seamless video and audio playback capabilities with integrated AirPlay support. My role involved implementing a robust architecture utilizing Redux for state management and Axios for streamlined API integration, ensuring a smooth and responsive user experience.

Projects

- **Fahm Quran (React Native)**

Develop a high-quality application and publish it on both app stores by meticulously designing, skillfully developing, and expertly uploading it to the respective platforms.

<https://play.google.com/store/apps/details?id=com.globewyze.fahmquran&hl=en&gl=US>

- **Flaps10 (React Native)**

Created a real-time chat application integrating Redux Saga for state management, enabling social media login functionality, and utilizing Axios for network communication and sockets for instant messaging capabilities.

- **Coleague (iOS)**

<https://apps.apple.com/us/app/coleague/id1436712334>

- **Chatoo (iOS)**

Chatting app, implemented group and one to one chat.

- **Fitness Workouts (iOS)**

<https://apps.apple.com/us/app/fitness-workout-gym-trainer/id1482733863?ls=1>

- **Translator (iOS)**

<https://apps.apple.com/us/app/speak-translate-translator/id1497303663>

- **Screen Recorder (iOS)**

<https://apps.apple.com/us/app/screen-recorder-video-editor/id1510472808>

- **Document Scanner (iOS)**
