### 💼 Professional Experience

#### saylani Mass IT training Program

Jr. MERN stack developer

12/2023 – present | Karachi, Pakistan

As a Junior MERN Stack Developer, I develop and maintain web applications using MongoDB, Express.js, React.js, and Node.js. I collaborate with my team, write efficient code. My responsibilities include managing databases, developing user interfaces, implementing server-side logic, and integrating APIs. I have solid JavaScript skills, experience with the MERN stack, and knowledge of RESTful APIs, Git, and Agile methodologies. I am detail-oriented, a strong problem-solver, and a good communicator and a student of bachelor's degree in Computer Science.

### 📁 Projects

#### E commerce

Built Clone of E commerce website using React S

01/2024 – present

**Project Overview:** Developed a fully functional e-commerce website using ReactJS with a focus on providing a seamless user experience and secure authentication through Firebase.

#### Results:

Successfully created a feature-rich e-commerce platform that provides users with a secure and enjoyable shopping experience. The project showcased proficiency in ReactJS development and Firebase integration.

#### Next Steps:

Continued to enhance the project by exploring additional features such as product search, filtering, and user profile management to further improve the overall functionality and user engagement.
