SOFTWARE QUALITY ASSURANCE ENGINEER

Highly skilled QA Engineer with a proven track record in delivering exceptional software quality. My expertise lies in applying robust testing methodologies to identify and eliminate defects, ensuring software reliability. I thrive in collaborative environments, actively contributing to process improvements and driving product excellence. Eager to leverage my skills and passion for quality to contribute to the success of your development projects.

KEY SKILLS

Manual testing : Functional Testing ,Regression Testing, User Acceptance Testing (UAT), Smoke Testing, Sanity Testing, Exploratory Testing

Automated Testing: Unit Testing, Integration Testing, End-to-End Testing, Performance Testing, Load Testing, Stress Testing

Specialized Testing: Security Testing, Compatibility Testing, Usability Testing, Localization Testing, Mobile Testing, API Testing

PROFESSIONAL EXPERIENCE

Alliance Global Tech

Jan 2023 - Present

SQA Engineer/ Software Tech Writer

As a QA Engineer at Alliance Global Tech, I ensured software quality and reliability through extensive manual and automated testing. I conducted functional, regression, UAT, smoke, sanity, and exploratory tests, as well as unit, integration, end-to-end, performance, load, and stress tests throughout the Software development Lifecycle. Specialized in security, compatibility, usability, localization, mobile, and API testing. Collaborated with development teams to identify and resolve defects, improving processes and enhancing product quality.

Heavestack solution

Aug 2022 - Nov 2022

SQA internee

During my internship at Heavestack Solution as a Software Quality Assurance (SQA) intern, I gained hands-on experience in various testing methodologies. I was responsible for identifying and reporting defects, executing test cases, and ensuring the reliability and performance of software applications. Working closely with the development team, I contributed to process improvements and enhanced my skills in software testing tools and techniques. This internship provided me with a strong foundation in SQA practices and prepared me for future roles in the field.

EDUCATION

Bachelor of Science in Software Engineering

Szabist islamabad
2018-2023

FSC

PCIT Rawalpindi

ACHIEVEMENTS

Merit Scholarship

Scored consecutive 4 merit scholarships during bachelor degree

Winner of English language competition

Recognized for outstanding performance in story writing among 50+ participants.
