PROFILE INFO

I'm Mubashir Ahmad, a Software Engineering graduate from the University of Kohat (KUST) in 2022. In my present role as a React and Next.js Developer, I specialize in comprehensive front-end and back-end development. My dedication is centred on creating visually stunning and high-performing products that deliver exceptional user experiences. Alongside my current position, I bring a wealth of experience in working with React JS, Next JS, and the MERN Stack, showcasing a versatile skill set in software development.

WORK EXPERIENCE

NAUSAL TECHNOLOGY

Web Development(FRONT-END)

Nausal Tech intern skilled in HTML, CSS, and JavaScript for static web projects. Proficient in the full development cycle, ensuring consistent quality. Attained intermediate-level front-end skills.

ALRIGHT TECH

MERN STACK (REACT JS)

MERN Stack Developer at Alright Tech, specializing in crafting dynamic web applications. Proficient in MongoDB, Express.js, React.js, and Node.js. Committed to optimizing performance and ensuring scalable code for impactful digital solutions.

ALPHINEX SOLUTION
