

# Waseem Yousaf

## SENIOR SOFTWARE ENGINEER

### PROFILE

Dedicated Software Engineer and Web Developer with over 5 years of experience in building robust and scalable web applications. As an expert in both front-end and back-end technologies, I consistently deliver high-quality and efficient results from start to finish. Committed to staying up-to-date with the latest industry trends, I have demonstrated versatility in both full-time and part-time roles.

### EDUCATION

#### BS Software Engineer

Islamia College University Peshawar

2015 - 2019

#### F.Sc. Computer Science

Paradise Model College Sarozai,  
Hangu

2013 - 2015

### EXPERIENCE

#### Senior WordPress & Shopify Developer

Virtions Pvt Ltd, Mar 2022 - Present

As a Senior WordPress Developer at Virtions Pvt Ltd since 2022, I specialize in creating high-quality web applications using Git, REST APIs, JavaScript, React, and WordPress. Additionally, my experience as a Shopify developer includes theme customization, issue resolution, and working with Shopify Liquid.

I lead projects with cutting-edge technologies, implement SEO strategies to boost site performance, and am dedicated to maintaining high coding standards and continuously improving development processes.

#### WordPress Developer

Webholden Pvt Ltd, Oct 2020 - Mar 2022

At Webholden Pvt Ltd, I crafted customized technical solutions to meet client requirements and optimized web applications for peak performance.

I gained expertise in Git version control, HTML5, CSS3, Bootstrap, jQuery, JavaScript, and ReactJS for front-end development, while also mastering WordPress and PHP for back-end functionality.

I enhanced user engagement and project functionality through exceptional development work and developed a robust understanding of SEO principles to improve site visibility. Multiple projects were successfully managed within deadlines, and technical support and troubleshooting assistance were provided as needed.

## EXPERIENCE

### Front-End Web Developer

*Red Hawk Grafix, May 2020 – Jan 2021 (Part-Time)*

At Red Hawk Grafix, I honed skills in HTML5, CSS3, Sass, Bootstrap, and WordPress, while also creating interactive user interfaces using JavaScript and jQuery.

Collaboration with the design team was crucial in ensuring alignment with project visions. Additionally, I played a significant role in optimizing websites for search engines to improve organic search rankings. Through hands-on experience and ongoing learning, I crafted efficient and innovative web solutions for a diverse range of clients

### Freelance Shopify Developer

*Fiverr 2018– Present*

Since 2018, I have been a freelance Shopify developer on Fiverr, providing clients with custom theme designs, theme customizations, and solutions for various front-end and back-end issues. My freelance work has allowed me to tackle diverse projects, refine my skills in Shopify Liquid, and deliver tailored solutions that meet client-specific needs and enhance e-commerce functionality.

## AWARDS

### Extra Mile Award

*Virtions - 2023*

Awarded for consistently delivering high-quality work with exceptional dedication and performance.

### Rising Star Award

*Webholden - 2021*

Recognized as a rising star for showcasing remarkable growth, innovation, and potential.
