## O S M A N M . K H A N

I was always the slightly crazy kid back in school. The one with the wildest of ideas, the most daring of thoughts. Creativity, as they call it, flew into my veins and I poured it all on paper; sketching, doodling, and imagining the beautifully complex ideas my brain produced. Visualizing has always been a part of who I am and I have practiced it in all the fields I could; graphic design, animation, illustration, painting, storyboarding, photography etcetera, and I am still hungry for more.
