Bachelor's in Software Engineering

 NUML Islamabad

 2020 – 2024

EXPERIENCE

Ui/Ux Team Lead

 Diligent Technologies – Rwp, PK

 Oct. 2023 – Present

- Led the design process for various projects, including dashboards, Web 3.0 websites, app CRMs, and Webflow/Framer-based projects, ensuring alignment with user needs and business objectives.
- Designed user-friendly seller and admin panels, developed custom design systems, and established brand guidelines to maintain visual consistency across products.
- Contributed to the design of AI-based software, focusing on creating intuitive interfaces that made complex technology accessible to users.

Ui/Ux Designer

 Terminal CTRL – Isb, PK

 March. 2021 – May. 2023

- Specialized in app design and dashboard creation, delivering interfaces that enhanced user productivity through clear, interactive data presentations.
- Worked on NFT projects, integrating creative design principles with blockchain technology to create visually engaging and user-centric platforms.
