## EXPERIENCE

### Backendz

April 2024 – Present

*Full Stack Developer*

*Onsite*

- Working on CRM and Admin Dashboard development for Venus Aesthetics and DesignPro Surveillance Design System.
- Specializing in Next.js, React.js, React Native, Redux, TypeScript, and GraphQL.

### Koncept-Solutions

July 2023 – March 2024

*Full Stack Developer*

*Onsite*

- Developed and maintained admin dashboards for businesses such as Paragon, Swati Autos, Meelu, Zaidi Traders, MMH Pindi, and Rehbar Society.
- Built dashboards for Paragon Interiors, Kashmir Builders, BHM, Green Hardware, and Mia Jee Fabrics.

### FGPC Hospital

January 2023 – June 2023

*Frontend Developer*

*Islamabad, Pakistan*

- Collaborated on a Hospital Management System for FGPC Hospital.
- Focused on React.js, React Query, React Table, and TailwindCSS.

### ItecExperts

August 2022 – October 2022

*React Intern*

*Onsite*

- Developed two e-commerce apps and a grocery dashboard for an Italy-based company using React.js and Redux.

## PERSONAL PROJECTS

### FGPC HMS | *ReactJs, React Query, React Table, SpringBoot*

- We developed a Hospital Management System specifically designed for FGPC Hospital, Islamabad, which handles a daily load of 5,000 patients.
- Contributed as a Frontend Developer, utilizing ReactJs, React Query, and React Table in conjunction with the SpringBoot backend for seamless integration.

### Grocery Dashboard | *NextJs, React Query, TailwindCSS*

- Created a Grocery Management Dashboard for an Italian store owner.

### Lanza Jobs | *NextJs, Redux, TypeScript*

- Developed a job portal named "Lanza Jobs," focusing on providing job listings and applications.
- Integrated advanced features to enhance user experience and improve scalability using Next.js and Redux.

### YelpCamp | *NodeJs, JavaScript*

- A web application for booking tourist sites using NodeJs and JavaScript.
