Islamabad Pakistan

[Linkdin Profile](#)

SUMMARY

I am a dedicated and detail-oriented QA Engineer with 1.5 years of hands-on experience in ensuring the quality and functionality of software applications. My expertise lies in testing and debugging Android applications, and I am passionate about delivering high-quality, user-friendly products. With a strong foundation in programming and software engineering, coupled with my background in Computer Science, I excel at identifying issues and optimizing processes to enhance software performance. I am eager to contribute my skills and knowledge to a dynamic team, continually learning and growing in the QA field.

PROFESSIONAL EXPERIENCE

SQA Engineer and Project Coordinator

Qfinity ,Gulburg Greens Islamabad | July, 2024 - Present

- Helped plan projects and ensured all tasks were assigned and completed on time.
- Created and managed quality assurance processes to make sure the software met high standards.
- Acted as a bridge between the team, stakeholders, and management to keep everyone on the same page and resolve any issues.
- Led the QA team and assigned testing tasks, while also tracking the project's progress.
- Organized meetings, took notes, and maintained important project documentation like status updates and test results.
- Identified risks and problems early and worked with the team to fix them, keeping the project on track.
- Continuously looked for ways to improve both project management and QA processes to be more efficient and effective.

JR.Software Quality Assurance Engineer

Devsky , Rawalpindi | Aug, 2023 - June, 2024

- Managed test schedules, coordinated testing activities, and arranged team meetings for bug reviews and status updates
- Prepared and distributed test reports, bug tracking updates, and other QA-related documentation.
- Coordinated test environments and resources, ensuring smooth execution of test cycles for the QA team.

SQA Intern

Devsky , Rawalpindi | June, 2023 - Aug, 2023

- Assisted in managing test schedules and coordinated team meetings to discuss test results and bug reports.
- Helped prepare and share test reports, bug tracking summaries, and other documentation to support the QA process.
