Achievements/Tasks

- I have focused on enhancing user experiences by redesigning production apps, with a particular emphasis on front-end development. In one project, I revamped the video player interface to incorporate vertical video playback, landscape mode, gesture controls for brightness and volume, fast-forward/rewind functionality, and video history features.
- Additionally, I redesigned the "Clap to Find My Phone" and "Video Downloader" apps, improving the UI for a seamless user experience while integrating backend functionalities.
