## SKILLS

---

- **DevOps Tools:** AWS (EC2, S3, IAM), Docker, Git/GitHub, Jenkins, Shell Scripting
- **Programming/Scripting Languages:** SQL, Java, C++, HTML, CSS, Shell Scripting, PostgreSQL
- **Theoretical Knowledge:** Kubernetes, Terraform, Ansible
- **Development Concepts:** OOP
- **Collaboration Tools:** Microsoft Office, ChatGPT

## EXPERIENCE

---

### DevOps Intern Cyberoide Tech

August 2024 - December 2024

- Managed version control and collaboration using Git/GitHub.
- Automated workflows and system tasks with shell scripting.
- Gained hands-on experience in basic networking

## PROJECTS

---

### ERP Finance System

Developed core ERP finance features, including user authentication, general ledger, and budgeting, with Git/GitHub for version control and task automation via shell scripting.

### Dockerized Web Application Deployment

Tools: Docker, AWS, Git/GitHub

- Containerized a web application (Node.js/Python Flask) using Docker.
- Pushed code to GitHub and deployed it on AWS ECS.

### Infrastructure Automation with Shell Scripting

Tools: Shell Scripting, AWS CLI

- Automated AWS tasks (EC2 instance management, S3 bucket operations) via shell scripts.
- Integrated AWS CLI and maintained version control on GitHub.

## EDUCATION

---

SZABIST, Islamabad

Oct 2021 — Present

BS in Computer Science, CGPA: 3.60

## CERTIFICATES

---

Basics of Python - UniAthena (Issued Mar 2025)

Jenkins Project: Building CI/CD Pipeline for Scalable Web Applications - KodeKloud (Issued Mar 2025)

Docker - Swarm - Hands-on Labs - KodeKloud (Issued Mar 2025)
