PROFILE INFO

I am a recent graduate aspiring to build a career as a SQA engineer. My skill set includes good proficiency in Quality Assurance. Additionally, I possess a good understanding of Software Testing Life Cycle (STLC) and Software Development Life Cycle (SDLC) methodologies. My passion for Quality assurance and problem-solving drives my enthusiasm to contribute to innovative projects. I successfully completed a final year project, "Human Fitness Device," that involved IoT hardware and Android application development, Further I have two internships experience in DotNet and Quality Assurance. I worked in different projects by creating detailed manual test cases for both functional and non-functional testing. As I embark on my journey as a software quality assurance, I am committed to continuous learning and growth, aiming to leverage my skills and contribute effectively to dynamic software quality teams.
