## ABOUT ME

Quality Assurance Engineer with a strong foundation in software development and API testing. Experienced in identifying and reporting bugs to ensure high-quality applications. Excited to further develop my skills in both manual and automation testing within a supportive team environment.

## EDUCATIONAL BACKGROUND

### COMSATS University Islamabad

Bachelors of Computer Science  
2020-2024

### ICG F-6/2 Islamabad

FSC  
2017-2019

## MY PROJECTS

### Foodex (React Native and Firebase)

- Delivered high-quality designs meeting client expectations and business goals.
- Incorporated client feedback to achieve desired products while maintaining usability and reliability.

### StepEv (MERN Stack)

- Developed a web platform to connect freelancers, investors, and startups using the MERN stack.
- Conducted unit and integration tests to ensure high performance, reliability, and user satisfaction.

## PROFESSIONAL EXPERIENCE

### SQA Engineer

OBS Technologia

October 2024 - Present

- Execute manual tests to validate software functionality, usability, and adherence to quality standards.
- Review product requirements to identify potential quality risks and enhance test coverage.

### Mobile Application Tester

Webrange Solutions

November 2022 - April 2023

- Conducted manual testing on mobile applications (APK) across various devices.
- Identified bugs and collaborated with developers to resolve issues and improve performance.

### UI Designer

Freelancing

June 2022 - May 2024

- Delivered high-quality designs meeting client expectations and business goals.
- Incorporated client feedback to achieve desired products while maintaining usability and reliability.
