PROFESSIONAL SUMMARY

Results-oriented Software Engineer with 2+ years of experience in full-stack and mobile application development. Proficient in React.js, Next.js, Node.js, Express.js, and React Native. Successfully delivered 10+ client projects in logistics, e-commerce, and CRM domains. Adept in building real-time applications using Socket.IO, Firebase integration, and designing scalable backend systems. Experienced with Agile development methodologies and cloud infrastructure, including AWS and Firebase. Skilled in developing secure authentication, optimizing app performance, and leading cross-functional teams.

PROFESSIONAL EXPERIENCE

Software Engineer

Devellp – Remote (USA) from Pakistan

December 2024 – March 2025

- Designed and developed collaboration features in React Native, including real-time chat, calendar events, and task assignments.
- Improved app load time by 40% through optimizations in rendering strategies and asset management.
- Integrated Firebase Cloud Functions, Firestore, and Push Notifications to provide seamless and scalable mobile experiences.

Software Engineer Intern

Devellp – Remote (USA) from Pakistan

October 2024 – December 2024

- Supported the development of a CRM application with modular components and real-time data synchronization via Firebase.
- Enhanced user authentication workflows and optimized cross-platform responsiveness.

Full Stack Developer

Bierman Collective LLC – Remote (USA) from Pakistan

February 2024 – September 2024

- Developed and maintained MERN stack applications with PostgreSQL integration and deployed using AWS services.
- Created reusable React components, implemented RESTful APIs, and managed DevOps processes using Docker.

React Developer Intern

Internee.pk – Remote from Pakistan

January 2023 – September 2023

- Developed responsive React.js user interfaces based on Figma designs, incorporating best frontend practices.
- Contributed to version control and team collaboration using Git and GitHub.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, Chakra UI, Tailwind CSS, Bootstrap, Material-UI, WordPress,

Backend: Node.js, Express.js, NestJS, FastAPI, REST APIs, WebSockets, Socket.IO, MongoDB

Mobile: React Native, Android Development, Firebase Cloud Functions

Cloud/DevOps: AWS, Firebase, Docker, Git, GitHub, CI/CD, Postman

Other: JWT Authentication, Agile/Scrum, Responsive Web Design, Firebase Authentication

PROJECTS

Real-Time Chat App

Built a full-stack real-time chat application using React.js, Express.js, and Socket.IO. Integrated secure authentication with JWT and Firebase, implementing real-time presence, typing indicators, and responsive UI with Chakra UI.

Devellp CRM App

Developed a cross-platform CRM application with React Native and Firebase. Features included real-time team communication, task management, cloud storage, and push notifications.

PackRat – packrat.world

Built a travel and logistics web app with React.js, Node.js, PostgreSQL, and AWS. Features included trip planning, shipment tracking, and user profile management.

E-commerce Store

Developed a scalable online shopping platform using React, Redux, Express.js, and MySQL. Included product filtering, cart and checkout functionality, order tracking, and an admin dashboard.

EDUCATION

Bachelor of Science in Software Engineering

Superior University

September 2021 – May 2025

Intermediate in Computer Science

Govt. Post Graduate College, Jhelum

August 2019 – November 2021

Matriculation in Computer Science

Govt. High School, Jhelum

March 2017 – May 2019

CERTIFICATIONS

- Intro to Machine Learning – Kaggle, March 2024
- AFS Venture Spart – MNSUA, December 2023
- Front-End Development – Coursera, August 2023
- Programming with JavaScript – Meta, August 2023
