## SUMMARY

With 3+ years of expertise in MERN Stack, Next.js, and NestJS, I specialize in building scalable full-stack applications. Proficient in React.js, I craft dynamic UIs using Material UI, Chakra UI, and CSS frameworks like Tailwind CSS and Bootstrap. Skilled in Redux, React Query, and SWR, I optimize state management and data fetching. I integrate Stripe and Moyasar for seamless payments and deploy efficiently on Vercel and Netlify. Additionally, I develop interactive chart systems to enhance data visualization. My focus on UI/UX ensures intuitive and engaging user experiences.

## EDUCATION

### Bachelor Software Engineering

Virtual University of Pakistan

Lahore

## EXPERIENCE

### React JS Intern 2022 Texinity Technologies

Islamabad, Gulberg Greens, Pakistan

Learned React.js fundamentals, including JSX, components, state, and props. Built a To-Do application as a first hands-on project to understand React concepts. Worked on API integration using Axios and Fetch API for data retrieval and updates.

Developed eCommerce UI in React.js as a practice project to enhance hooks and component-based architecture skills.

Gained hands-on experience in Git & GitHub for version control and collaboration.

### Mern Stack | Typescript 2023 ZOQO Technologies (Space X)

Khanna Pul, Islamabad, Pakistan

Learned and mastered Node.js fundamentals, followed by Express.js for building scalable server-side applications. Developed RESTful APIs in Express.js for multiple projects, ensuring seamless integration with frontend and mobile applications.

Worked on SXM, a business management app, where I developed the backend in Express.js, while the frontend was built in Flutter by another developer.

Built APIs for Egasi, a real estate platform, handling both frontend (React.js) and backend (Node.js) to deliver a smooth user experience. Created an admin panel for Egasi using the MERN stack, providing efficient management capabilities.

Developed backend services for Street Snacks, a food ordering app for street vendors, enabling users to order items like burgers and shawarmas seamlessly.

### Mern Stack | Next Js | Typescript 2024 - Present KISLABS

Gulberg III, Lahore, Punjab, Pakistan

Gained expertise in Next.js, mastering both server-side rendering (SSR) and client-side rendering (CSR) for optimized web performance. Worked on two major projects: Tamam and Fatoraty, both focused on inventory and business management solutions.

Developed both backend (Express.js) and frontend (React.js), ensuring seamless API integration. Implemented real-time notifications using Socket.io for an enhanced user experience. Integrated Moyasar, a Saudi Arabian payment gateway, for secure and efficient transactions.

Built analytical dashboards with interactive charts for business insights. Utilized Redux Thunk for state management and styled components using SASS & Bootstrap. Worked on a microservices-based architecture, ensuring scalability and modular development. Collaborated with a team of developers using GitHub, following best practices for version control and teamwork in a multi-developer environment.

## SKILLS

### Backend

Node Js

Express Js

MongoDB

Prisma ORM

Mongoose

Nest Js

Swagger/OpenAPI

### Frontend

HTML

CSS

JavaScript

TypeScript

React Js

Next Js

Redux Toolkit

React Query

SWR

Bootstrap

Tailwind Css

Sass

Material UI

Chakra UI

Recharts

### Other

Git | Github

Socket io

Stripe

Vercel

Netlify

Moyasar

Hostinger

## PROJECTS

### EGASI

<https://www.egasi.net> (Mern Stack | AWS | Stripe)

### GITX

<https://gitcross.com> (HTML | CSS | Bootstrap)

### Tamam

<https://dev.tamamplus.com> (Mern Stack | AWS | Moyasar | Socket)

### Fatoraty

<https://staging.fatoraty.com> (Mern Stack | AWS | Moyasar | Chart Js)

### Capital Gemological Laboratory

<https://capitalgemologicalab.com> (Next Js | Express Js)

### Solar Solutions

<https://solar-system-two-mu.vercel.app> (Next Js)

# Tech & Sports Content Creator

## Nexus Programmers

### Tech , Discipline & Motivation-Based Content

---

Share the latest advancements in AI, JavaScript, Python, and other cutting-edge technologies. Create motivational reels by overlaying powerful quotes on dynamic Lahore cityscapes and luxury car visuals (BMW, Mercedes, Audi, Toyota, etc.). Post inspirational and thought-provoking quotes to engage and educate the audience. Foster discussions around tech trends, personal growth, and self-discipline.
