Islamabad

Profile

As a passionate and versatile Web Developer, I am successful at turning concepts into visually appealing designs. With a strong foundation in attention to detail, I am dedicated to providing creative solutions that captivate viewers and convey messages effectively.

Professional Experience

10/2023 – present
Islamabad, Pakistan

Jr. Frontend Developer

I am a Junior Front-End Developer with a strong passion for crafting responsive, accessible, and performance-optimized web interfaces. Proficient in HTML, CSS, JavaScript, React.js, Bootstrap, and Tailwind CSS, I specialize in transforming UI/UX designs into clean, functional code. I enjoy solving real-world problems through interactive and scalable front-end solutions. With a focus on user experience, I ensure cross-browser compatibility, mobile-first design, and pixel-perfect implementation.

Education

Bachelor of Information Technology

University of Education Lhr

Skills

HTML, CSS, Javascript, Reactjs, Nextjs, TailwindCSS,
Bootstrap, Figma, Git, UX/UI Designing, Wix

Projects

Signup Form – React.js Based User Authentication Component

A dynamic and responsive form built with React for user registration and validation.

Developed a responsive signup form using React.js that includes form validation, user input handling, and error feedback. Implemented component-based architecture to manage user states and dynamically render form responses. Focused on user experience by integrating real-time validation and clean UI design.

Asim Jofa Website Clone

A pixel-perfect fashion website clone replicating real-world e-commerce design.

Created a fully responsive front-end clone of the Asim Jofa fashion website to replicate real-world e-commerce design standards. The project included detailed layout design, modern typography, hover effects, and basic interactive elements to mimic user experience and improve design proficiency.
