## ABOUT ME

I'm an experienced Odoo Developer with a strong background in Python and a passion for creating smart, efficient business solutions. I specialize in customizing Odoo modules, developing new features, and integrating the platform with third-party tools like payment gateways, accounting software, and social media APIs. I'm also skilled in generating custom reports using QWeb and handling PDF exports tailored to specific client needs. With solid knowledge of JavaScript, SQL, and backend logic, I focus on building reliable, scalable systems that help streamline operations and improve overall productivity.
