PROFILE

Detail-oriented SQA Analyst with over **3 years of experience** in manual testing for Web2, Web3, and Microsoft Dynamics 365-based platforms. Proven track record in designing and executing test strategies, validating complex systems, and collaborating in Agile/Scrum teams to ensure defect-free, user-friendly applications. Experienced in testing across desktop, web, and mobile platforms with a strong foundation in test case design, functional/UI testing, and integration testing.

PROFESSIONAL EXPERIENCE

Senior SQA

05/2022 – present
Islamabad, Pakistan

Codora

- Executed end-to-end manual testing (Functional, UI/UX, Integration) across Web2/Web3 platforms and Dynamics 365 CRM solutions.
- **Microsoft Dynamics 365 – Grants Management System**
- Designed comprehensive **test plans**, wrote and executed **manual test cases**, and maintained **traceability** using **Azure DevOps** and **JIRA**.
- Conducted **MetaMask wallet integration testing**, ensuring secure and consistent dApp performance.
- Validated NFT/token deployment, **staking**, **swapping**, **bridging**, and cross-chain asset movements across Ethereum, BSC, Solana, etc.
- Tested a **Telegram-based Grid Bot (Solana)** for order execution and trading logic accuracy.
- Participated in **sprint planning**, **grooming**, and **retrospectives**, aligning QA goals with agile teams.
- Performed **mobile app testing** on multiple screen sizes and OS versions to ensure UI responsiveness.
- Provided **bug reporting** and **root cause analysis** support to developers on performance and database issues.
