- |              |             |                |
|--------------|-------------|----------------|
| • Typescript | • ExpressJs | • MySQL        |
| • Javascript | • MongoDB   | • Tailwind CSS |
| • ReactJs    | • NodeJs    | • HTML5        |
- 

## PERSONEL PROJECTS

### Chat-App | [LINK](#) |

Developed a real-time chat application using Socket.io, enabling instant messaging with features like automatic tracking and storage of unread messages (up to 50+ unread messages per chat) when users are on other chat. The app supports multimedia sharing, allowing users to send photos, and includes robust group chat functionality for up to 100 members, fostering efficient collaborative communication. Designed for an intuitive, seamless user experience.

### Gemini | [LINK](#) |

Developed a full-stack AI assistant web app inspired by Google Gemini, integrating large language model APIs to support real-time conversational interactions with text and image input, built with a custom React frontend and Node.js backend to deliver a seamless, user-friendly experience.

---

## PERSONEL PORTFOLIO | [LINK](#) |

Built a responsive and visually engaging personal portfolio website using React and Tailwind CSS, showcasing projects, technical skills, and experience, with smooth navigation and optimized performance across devices

---
