

M.Nabeel Altaf

Full Stack Developer | Software Engineer

ABOUT

I am currently working as a Full Stack Web Developer at a software house in Pakistan and, along with freelancing, have a total experience of 2 years. In addition, I have successfully managed and delivered multiple projects as a freelancer, further enhancing my technical expertise and project management capabilities. My experience with Agile methodologies, particularly Scrum, and various SDLC approaches such as Spiral, Rapid Application Development (RAD), and iterative models, has enabled me to effectively contribute to dynamic and innovative projects.

I hold a Bachelor's degree in Software Engineering from COMSATS University Islamabad, which provided me with a solid foundation in software development and project management. Throughout my academic journey, I developed key leadership and teamwork skills, empowering me to manage projects effectively and collaborate with others in diverse environments.
