

## SARDAR ABDUL REHMAN

Islamabad, Pakistan • [abdulrehmanit582@gmail.com](mailto:abdulrehmanit582@gmail.com) • (+92) 313-516-2553 • [LinkedIn](#)

---

Experienced SQA Engineer with more than one year of expertise in software quality assurance for web, mobile, and desktop applications. Skilled in test automation (Selenium and Appium using Python), performance testing, and defect management using JIRA. Proven ability to enhance software quality through detailed testing and effective communication with cross-functional teams.

---

### Professional Experience

**TRIPSHEPHERD** – Islamabad

Jan, 2024 - Present

#### Associate Engineer (SQA)

- Conduct functional, regression, and performance tests on web and mobile applications.
- Automate test cases using Selenium and Appium with Python, boosting efficiency in web and mobile application testing. Perform load and stress testing to assess system performance.
- Collaborate with teams to resolve issues and improve user experience.
- Write and maintain comprehensive test cases and documentation.

**Cube Healthcare System** – Abbottabad

June, 2023 – Dec, 2023

#### Junior Engineer (SQA)

- Executed test scenarios for healthcare apps, ensuring high standards.
- Assisted in automating tests, increasing coverage and reliability.
- Worked with the team to resolve defects, reducing post-release issues.

**KPIT Board** – Abbottabad

Dec, 2022 – June, 2023

#### Intern (SQA)

- Supported various testing activities, including functional and integration tests.
- Contributed to test case development and execution.

---

### Projects

#### Tripshepherd App & Website

- Tested interactive map, tour tracking, and guide-user chat features.
- Automated testing with Appium and Selenium for booking management and location services.
- Conducted API and performance testing for consistency and stability.
- Worked on the **Tripshepherd Website** (<https://www.tripshepherd.com>) to ensure alignment with the mobile application experience and seamless feature integration.

#### Tripshepherd Goat Guide

- Tested tour-scheduling, guest management, and navigation features.
- Conducted load and stress testing to ensure system stability.
- Performed API testing using Postman to validate cart functionality and payment gateway integration.
- Collaborated with teams to resolve critical defects, improving app performance.

---

### Skills

- **Testing Tools & Frameworks:** Selenium, Appium, JMeter, Postman.
- **Manual Testing:** Functional Testing, Regression Testing, Integration Testing, Usability Testing, User Acceptance Testing (UAT), Smoke Testing, Sanity Testing, Exploratory Testing, Ad-hoc Testing.
- **Automation & Scripting:** Selenium (Python), Appium (Python), SQL, Git, GitHub.
- **Database Testing:** SQL, MySQL, PostgreSQL, MongoDB, Cloud Firestore
- **Bug Tracking & Test Management:** JIRA, ClickUp.
- **Soft Skills:** Adaptability, Attention to Detail, Communication, Teamwork, Problem-Solving, Time Management, Self-Starter.

---

### Education

**Hazara University** – Mansehra, Pakistan

2018 – 2022

**Bachelor of Computer Sciences (B.C.S.)**

---
