### PROFESSIONAL SUMMARY

---

**Front-End Developer** with **3 years of experience** in building and deploying modern web applications using **React.js**, **JavaScript (ES6+)**, and **responsive web design**. Skilled in **RESTful API integration**, **state management**, and **UI performance optimization**. Proficient in **Material UI**, **Git**, and **agile development workflows**. Focused on creating **scalable, user-centered interfaces** and delivering **high-quality, maintainable code** that enhances **performance** and **user experience**.

### EXPERIENCE

---

**Front-End Developer (Intern)**, Customer Support Center, Bahria Town 06/2022 – 09/2022

- Developed and maintained a **Property Verification Website** using **React.js**, ensuring seamless data management and a responsive user interface.
- Integrated **RESTful APIs** for real-time data synchronization and improved user interactivity.
- Enhanced **UI responsiveness and performance**, reducing page load time and improving usability by 30%.
- Collaborated with **backend and design teams** to deliver high-quality, user-friendly web modules.

### TECHNICAL SKILLS

---

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Material UI, Responsive Web Design

**Backend:** PHP, MySQL, RESTful APIs

**Tools & Technologies:** Git, GitHub, VS Code, Chrome DevTools, JSON, npm

**Programming Concepts:** C++, Object-Oriented Programming (OOP), Android (Java)

### SOFT SKILLS

---

- Strong **communication and collaboration** in team-based development.
- Creative approach** to UI design and debugging challenges.
- Efficient time and task management** during multiple project deadlines.
- Quick adaptability** to new tools and frameworks in fast-paced environments.

### PROJECTS

---

**Property Verification Website**, React.js, RESTful APIs, Material UI

- Built a property verification web app handling **100+ property records** with seamless API integration and responsive design.
- Improved data synchronization and reduced API latency by **25%** using optimized fetch logic.

**Portfolio Website**, React.js, Material UI

- Designed and launched a personal portfolio with **6+ project showcases** and smooth animations to enhance recruiter engagement.

### **Music App, *React.js, RESTful APIs, Material UI***

- Developed a responsive music player web app with **search functionality, dark mode, and favorite track saving** using **API integration** and **localStorage** to enhance user experience and interactivity.

### **Login & Signup, *HTML, CSS, React.js, RESTful APIs***

- Created a responsive authentication interface with secure registration and validation to strengthen front-end form-handling skills.

### **GitHub Search Engine, *React.js, GitHub API***

- Developed a search tool that fetches and displays GitHub repositories in real time, focusing on **API data handling** and **UI rendering**.

### **My Recipe Finder, *React.js, Recipe API***

- Built a recipe app with filtering and sorting features to enhance understanding of API requests and user interaction design.

### **Pokemon Moves Explorer, *React.js, Pokemon API***

- Designed an interactive app to explore Pokémon moves, abilities, and stats, applying API fetching and state management concepts.

### **Student Convenience App (FYP), *PHP, HTML, CSS, JavaScript, Android Studio***

- Developed a full-stack academic convenience app as a final year project, integrating document printing, stationery booking, and notification features.
- Designed the system to manage data for **1,000+ potential users**, ensuring efficient database structure and smooth synchronization between web and mobile versions.

### **Restaurant Management System, *C++***

- Streamlined menu and order management, reducing processing time by 40% through OOP-based logic.

### **MadeEasy Cooking Website, *PHP, HTML, CSS, JavaScript***

- Built an attendance tracking app as a personal learning project, focusing on local database management and intuitive UI design.

### **Mark Attendance App, *Android Studio, Java***

- Built an attendance tracking app handling 50+ student records, supporting both online and offline data storage.

## **EDUCATION**

---

**BS in Software Engineering, *International Islamic University, Islamabad***

2017 – 2021

## **LANGUAGES**

---

**English** — Professional Working Proficiency

**Urdu** — Native / Bilingual
